# We supply businesses with the products they need to keep moving

Operating from 12 locations and together with a large tanker fleet, we supply fuel to businesses across a wide range of industries throughout Scotland and the north of England.

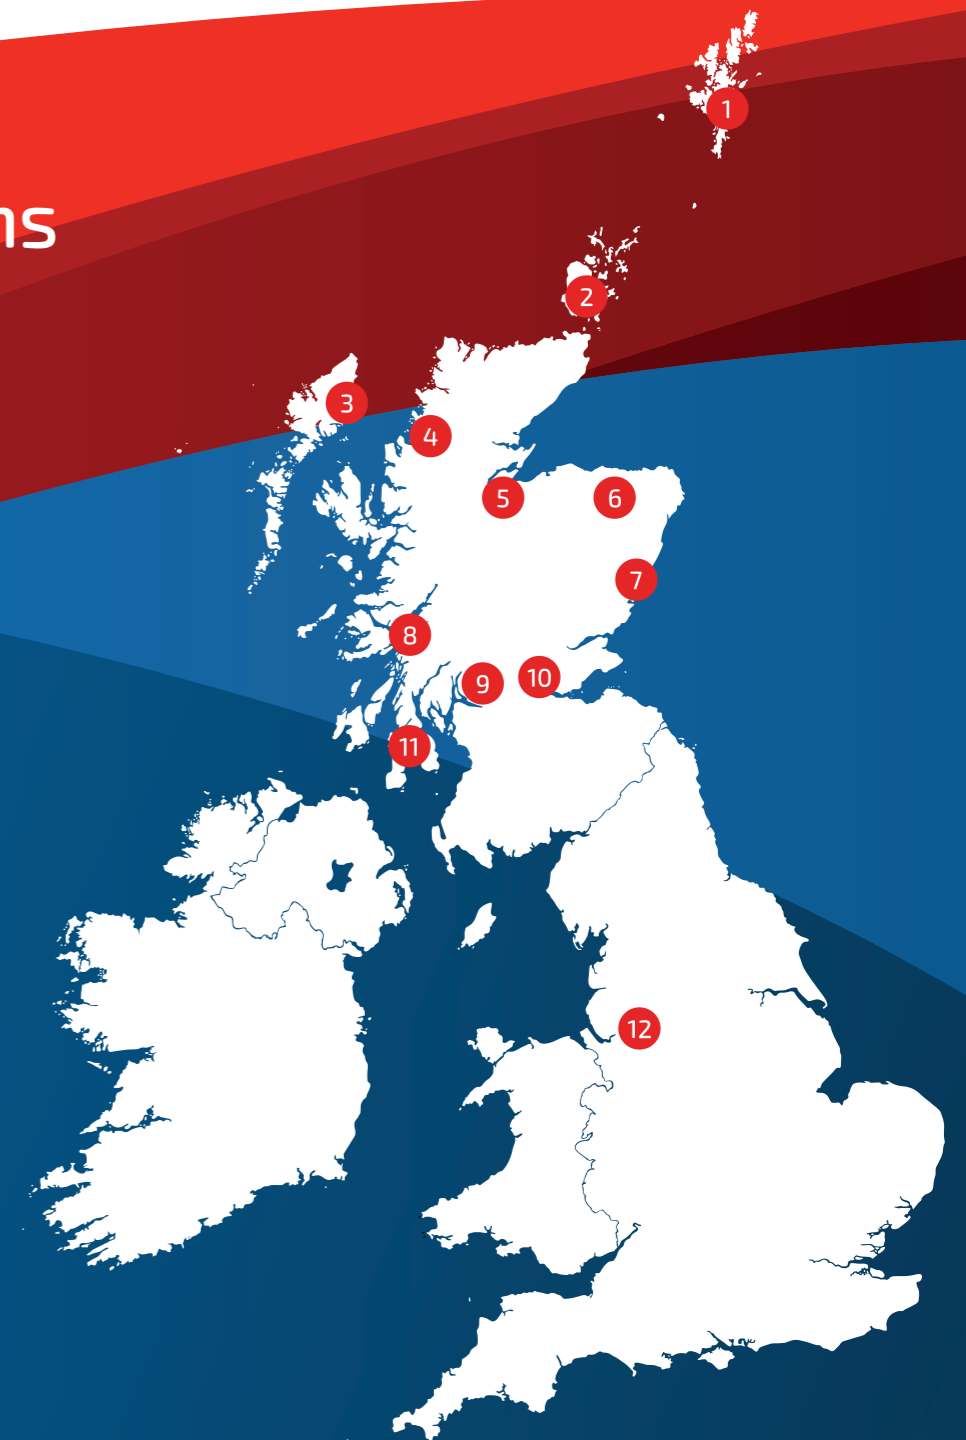

Highland Fuels is dedicated to providing exceptional service whilst offering fair and consistent pricing for its customers.

The company has grown steadily, and while our HQ is based in Inverness, our operations provide for extensive coverage between our southernmost office in Manchester and our northernmost office in Lerwick.

In 2023, Highland Fuels transitioned to employee ownership, safeguarding the company's rich history and enabling the core values and purpose to remain while empowering staff members to guide the business into the future.

# Nationwide fuel card services from the friendliest team

A fuel card is a simple and efficient way for businesses to pay for fuel and fuel-related products. It has the look and feel of a banking credit card, and depending on your type of business, it offers a wide range of features and advantages.

## How does a Fuel Card work?

Through our fuel cards we are able to offer you a weekly fixed price (WFP). This means that each Friday we will notify you of your price for the following week (Monday to Sunday\*). When you go to use your card at your selected network sites you will only pay the fixed price we give you and not the pump price on the forecourts.

Each fuel card has an ID number directly linked to your Highland Fuels account. This means that each transaction can be tracked on the invoice, which is sent every Tuesday. When a cardholder completes a transaction, this information is recorded and the purchase amount is added to your invoice using the WFP.

\* The Esso card product pricing runs from Saturday to Friday.

## The best value fuel card for your company

At the heart of Highland Fuels is a desire to bring our customers the most reliable, cost-effective fuel card solution possible.

The Highland Fuels fuel card gives businesses access to a UK-wide refuelling network that includes the following features and benefits:

- **Fair and consistent weekly fixed pricing**
- **Pump price options available**
- **Reduced fuel costs**
- **Bespoke credit terms**
- **Weekly HMRC-compliant invoices**
- **Secure payment solution for your business**
- **Decreased administration time**
- **Optimised fleet and driver performance**

Qualifying businesses receive free fuel cards. Whether you're a small business with a few vehicles or a larger company with a fleet to manage, our fuel card provides competitive refuelling at hundreds of conveniently located retail forecourts nationwide. Choose from selected Esso, Shell, BP, Texaco, Murco, Harvest, and JET fuel stations, as well as supermarket forecourts such as Tesco, Morrisons, and Sainsbury's.

With an extensive network and an easy-to-use fuel station finder app for your satellite nav or smartphone, you'll always be able to find fuel easily when needed.
